Permission Letter

Dt: 13-09-2022

To,  
The Principal,  
Sir C.R.Reddy College for women,  
Eluru.

Subject: Request to grant permission to arrange a Rally on  
"Ozone day" for all life science students-Reg.

This is to bring to your kind notice that Department of Life Science's  
Conducting a Rally on 16-09-2022 at 10:00am for all for II BSC CBZ  
Life science students. In this context, we request you to grant permission to  
Arrange the rally for life science students in vatluru village on 16<sup>th</sup> September  
2022.

Thanking You Madam

### **OBJECTIVES:**

The principal aim of the Montreal Protocol is to protect the ozone layer by taking measures to control total global production and consumption of substances that deplete it, with the ultimate objective of their elimination on the basis of developments in scientific knowledge and technological information.

### **OUTCOMES :**

The phaseout of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems

## **Report :**

Department of Zoology and Fisheries conducted a Rally on Ozone day on 16-09-2022 for all the life science students the programme was guided by the Dr.Ch. Swapna and other faculty members. The Rally Ozone Day is to educate people worldwide about the crucial role of the ozone layer in preserving life on Earth. By increasing awareness, individuals and communities are better equipped to take action to protect this vital shield. This day is also known as International Day for the Prevention of the Ozone Layer. This significant day is dedicated to raising awareness among people about the importance of safeguarding the ozone layer and addressing the issue of its depletion. The ozone layer protects the Earth against most UVB coming from the sun. It is always important to protect oneself against UVB, even in the absence of ozone depletion, by wearing hats, sunglasses, and sunscreen. However, these precautions will become more important as ozone depletion worsens. All the students were actively participated in the programme
