NOTICE

This is to inform that, Department of Zoology & Fisheries conducting an conducting an educational trip For life science students to Fish Market in Eluru.On 11-02-2022 So we request all the life science students to attend field trip without fail.

Principal

PRINCIPAL Sir C.R.R. College for Wor ELURU

OBJECTIVES:

- To aware the name of the fishes and prawns with their identifying features.
- To aware of seasonal fishes and prawns that avail in the market.
- To have awareness on the transport of fry and fingerlings.
- To have awareness on the names of dry and salted fishes in market.

OUTCOMES

- The students are able to identify the names of fishes & prawns.
- The students are able to identify the names of salted and dry fishes
- This helps to create a vibrant and sustainable local economy. Shopping at a local fish market also ensures that you are getting the freshest seafood possible. As the fish is caught locally, it is often fresher than fish sold at grocery stores..

REPORT:

Sanitary and hygiene programme in Eluru fish market was conducted in this programme the life science students created awareness with reference to hygiene conditions which are to be followed by the fish merchants and fish vendors.

Microbial growth is the major reason for fish quality loss which has to be monitored.

To create the awareness of different types of fishes and their morphological features of fishes.

A marketable place for selling fish & fish products.

It can be dedicated to wholesale market

trade between fisherman and fish merchants ,or the sale of sea food to individual consumers, or to both.

Retail fish markets, a type of wet markets often sell streetfood as well.

Students were learned about the different types of fishes and their morphological

characteristics and several marketing strategies like importing and exporting.
