ELURU

Brief Note:

An awareness programme on road safety was conducted on 9th February 2021 at Rama Chandra College of engineering, eluru our college staff and students were participated in this programme

Our students tried to bring awareness in others that it is necessary for everyone to be aware of traffic signs and road rules. Traffic signs can give you important information that can ensure your safety and the safety of those around you and awareness of road rules can lower chances of accidents.

Outcomes:

- Students would be able to identify the benefits of walking, as opposed to always being driven.
- Students would have the skills and knowledge to cross the road safely. Students will identify hazards on or near the road and be careful near these.
- Students would demonstrate appropriate behaviors in and around a vehicle.

Report of the Activity:

An awareness programme on road safety was conducted on 9th February 2021 at Rama Chandra College of engineering, eluru our college staff and students were participated in this programme

Our students tried to bring awareness in others that it is necessary for everyone to be aware of traffic signs and road rules. Traffic signs can give you important information that can ensure your safety and the safety of those around you and awareness of road rules can lower chances of accidents.

M.Mounika Said that in today's world road and transport has become an integral part of every human being. Everybody is a road user in one shape or the other. The present transport system has minimized the distances but it has on the other hand increased the life risk. Every year road crashes result in loss of lakhs of lives and serious injuries to crores of people.

In India itself about eighty thousand people are killed in road crashes every year which is thirteen percent of the total fatality all over the world. Man behind the wheel plays an important role in most of the crashes. In most of the cases crashes occurs either due to carelessness or due to lack of road safety awareness of the road user. Hence, road safety education is as essential as any other basic skills of survival.

Our aim is to provide road safety information for road users to encourage safer road user behaviour among current and prospective road users and reduce the number of people killed and injured on our roads every year.
