Principal

PRINCIPAL
Sir C.R.R. College for Women
ELURU

Brief Note:

Sir C R Reddy College for women conducted a Plantation programme in ZPH School, Vatluru . In this program Department of Botany, UBI MEMBERS participated in this program. The students plant some medical plants in ZP high school campus vatluru.

The plants which are sown by the students are

- 1- Haemilia patens – rubiceae
- 2- Catharanthus roseus – apocynaceae
- 3- Bauhinia variegata – caeslpinaceae
- 4- Citrus limon – rutaceae

OUT COMES:

- Through this program they learned how important trees are in human life and their benefits
- Through this program they learned about some types of medicinal plants, their scientific names and how to use them in everyday life

Report of the Activity:

An awareness programme was conducted at ZPH School, Vatluru as a part of this programme to educate the people and to tell the importance of plants

Plantation agriculture refers to large-scale farming that specializes in the cultivation of cash crops for commercial purposes.

Computer lecturer M.Divya sri and commerce lecturer P.Praveen and students were participated in this awareness programme.

P.Praveen said to Plantation agriculture can have significant environmental implications, including deforestation, habitat destruction, soil erosion, and biodiversity loss. The use of agrochemicals, such as pesticides and fertilizers, can also lead to water pollution and soil degradation.

M.Divya sri The future of plantation agriculture lies in the adoption of sustainable practices that prioritize environmental conservation, biodiversity protection, and social responsibility. Research and development efforts are focused on enhancing crop productivity, reducing environmental impacts, and ensuring the long-term sustainability of plantation farming while meeting the growing global demand for agricultural commodities.
