7.1.3- Beyond the campus environmental promotion activities

Department of Physics in association with Unnat Bharat Abhiyan organized an awareness program on Electrical Power Saving at Bhogapuram village on 03/11/2022 from 10:30 a.m. to 12:30 p.m.

K. Sirisha, HOD Department of physics welcomed the ward member and the people of Bhogapuram. III BSc M P C students of our college participated in this program.

K. Sirisha briefly explained the importance of electricity and how it is produced by the fossil fuels. She also explained about the present and future problems regarding production of power and its wastage.

She educated them that if we are wasting power means we are wasting the money and also damaging the environment. As the power is very important to us and to our future generations we need to save the power.

In order to encourage the people towards power saving LED bulbs are distributed to the people of Bhogapuram.

LED bulbs are distributed to the people of Bhogapuram.

Disasters caused by plastic at Bhogapuram Village, Pedavegi Mandal, Eluru District, Andhra Pradesh.

Sir C.R.Reddy College for Women has adopted 5 villages as a part of Unnat Bharat Abhiyan. We conducted an awareness programme on 03/11/2022 on "Disasters Cause by Plastic Usage" in Bhogapuram Village, Pedavegi Mandal, Eluru District. We explained the importance of water in our daily life and how water is polluted by human activities. She also explained how thrown plastic covers and bottles in the water are causing harm to aquatic life and explained the importance of groundwater. Nowadays many people are using groundwater without any specific methods for household, agriculture and industrial purposes. If it continues there may be scarcity in groundwater too.

In order to save water for present and future generations, we advised them to utilize water in a proper way and also advised them to construct water conservation pit in each and every house, industries and working places like offices, shopping malls, restaurants etc

We went to Primary School, Bhogapuram village conducted a quiz competition for 1st to 5th class and High School students and presented gifts to encourage them and also conducted an awareness programme on "Don't use plastic" like plastic water bottles etc and advised them to use steel or other material essentials.

We created awareness among the people of Bhogapuram village regarding "Water saving"

The programme ended with a joint pledge "SAY NO TO PLASTIC"

Department of Botany in association with Unnat Bharat Abhiyan organized a Two days Workshop on “Organic Farming” at Denduluru village on 08 & 09th November 2022.

The workshop on soil health and compost preparation conducted at Denduluru village, Eluru District, Andhra Pradesh. The workshop was being hosted by organic farming expert, D. Tulasi Das. Village farmers and students participated in this workshop.

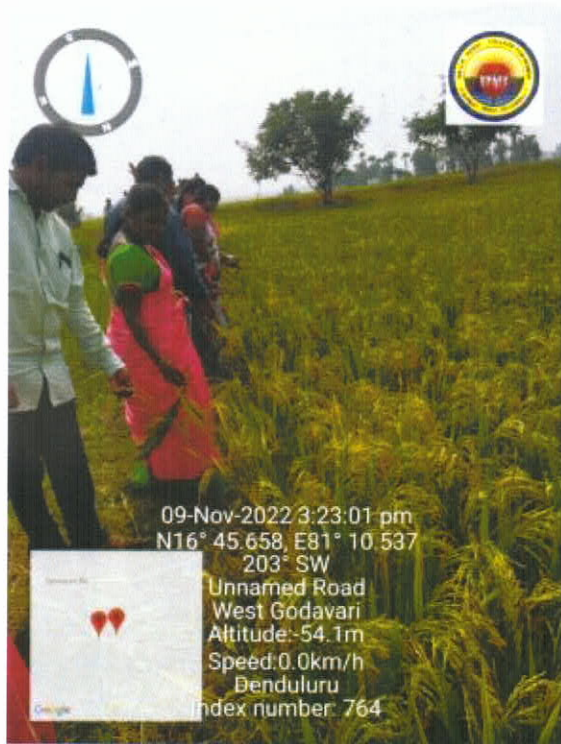

Sri D. Tulasi Das had executed every aspect of organic farming- from transitioning away from chemical farming to implementing biodynamic methods to improve soil fertility and maximize crop yield.

Participants would leave with a deeper understanding of soil, soil microbes, and why the maintenance and improvement of soil fertility cannot be done without practicing the correct composting techniques as demonstrated during the workshop.

Attendees would develop a sense of what is needed to raise good crops from the standpoint of nutrition for the plants and plant health.

AWARENESS PROGRAMME TO FARMERS ON ORGANIC FARMING

STUDENTS EXPLAINED THE USES OF ORGANIC FORMING
