

REPORT

The Department of Commerce and Entrepreneurship Development Cell (EDC), in association with the IQAC organized an industrial visit to **SARVARAYA SUGARS BOTTLING UNIT BHIMADOLE**- on 23rd September 2026. Sarvaraya Sugars Bottling Unit, located in Bhimadole, is one of the well-established industrial units engaged in sugar processing and bottling operations. The company follows systematic production procedures and maintains high standards of quality and hygiene in its operations.

Students of **II B.Com (CA & Gen), and I & II BBA**, with a total participation of **123 students** with two groups accompanied by four faculty members M. Durga (HOD), K.Mary Ratna Kumari, Y.Swathi, DR. J Deva Mani, and K.Vara Lakshmi and U. Rajeswari. The main objective of the visit was to provide practical exposure to students regarding industrial operations, production processes, quality control, and management practices in the sugar bottling industry.

The plant manager explained the production processes, quality control measures, safety standards, and management practices followed in the unit. The students were taken on a guided tour of the facility where they observed raw material procurement and storage, sugar processing and purification stages, bottling and packaging operations, quality testing procedures, and warehousing and dispatch systems. The visit provided valuable insights into production planning, inventory management, supply chain operations, and overall industrial discipline. Overall, the industrial visit to Sarvaraya Sugars Bottling Unit, Bhimadole, was highly informative and beneficial, enriching the academic learning experience of the students.
