

Guest Lecture on Machine Learning

The Department of Computer Science organized a Guest Lecture on "Machine Learning" for 3rd-year Computer Science students on 25-09-2024 at 1:30 to 4:30 PM at Seminar Hall.

Machine Learning (ML) is a subset of artificial intelligence that involves the development of algorithms that allow computers to learn from and make predictions or decisions based on data, without being explicitly programmed. As a part of this we are planning to conduct this Guest Lecture.

Smt M.Divyasri, Lecturer in Computer Science invited the Chief Guest Smt. G.Sarala, I/C Principal, Sir C R Reddy College for Women, Resource Persons Ms. M. Lakshmi Prasanna and Ms. A. Sai Nandini from SandSpace Technologies, Vijayawada, IQAC Co-Ordinator K. Jhansi Lakshmi and Mr.K.V.V.Srinivas, HoD, Dept of Computer Science on to the Dias.

Smt. G.Sarala, I/C principal, Sir C R Reddy College for Women, in her speech advised the students to effectively utilize machine learning to improve the quality of life and use resources provided by machine learning for improvement in academics.

Ms. M. Lakshmi Prasanna and Ms. A. Sai Nandini from SandSpace Technologies, Resource Persons shared valuable information about the basics of features of Machine Learning features like Automated Data Processing, Predictive Analytics, Adaptability, Feature Extraction, Deep Learning Capabilities, Unsupervised Learning, Real-time Processing. It was an interactive session where students posed queries to the Resource Person. The session was concluded by a vote of thanks and national anthem by 4:30 P.M.

As per discussion with the students, the topic covered was appreciated by most of the students and requested to arrange such talk in the future also.

Resource Person Gave a Lecture on Machine Learning
