

Report

An awareness seminar on **Medical Coding** was organized by the dept. of Biotechnology, for the undergraduate students of **Sir C. R. Reddy College for Women, Eluru**, with the objective of introducing students to the emerging field of medical coding and its career opportunities for about 135 life Science students.

The seminar was conducted by **Ms. Mounika and Mr. Aquib Aayan**, resource persons from **Thought Flows Medical Coding Academy, Hyderabad**. They provided students with valuable insights into the fundamentals of medical coding, its role in the healthcare industry, and the skills required to pursue a career in this field.

They introduced students to the basic concepts of medical codes and discussed how medical coding supports healthcare organizations in areas such as billing, insurance claims, medical records management, and healthcare data analysis.

The speakers also highlighted the **career prospects in medical coding**, particularly for graduates interested in entering the healthcare and allied-services sector.

An interactive session was also conducted, during which students actively participated and raised questions regarding training, career opportunities, job roles, and the scope of medical coding. The resource persons responded to the queries and encouraged students to explore the field based on their interests and career goals.

Opening remarks by HOD-Dept. Of Biotechnology

Talk by Resource person, Miss Mounika
